Ohio might be one of the nicest cycling destinations that everyone overlooks. With the greatest number of bike route miles in the nation, variety of bike trails and varied terrain, there is beauty on two wheels for every taste.

Ohio Randonneurs has been active since the International Randonneurs days and played a critical role in the birth of Randonneuring in the United States. Ohio Randonneurs continues this tradition today, hosting various events throughout the year, which include a complete Audax Club Parisien (ACP) series, a 8k600k, and a Fleche. And word on the rando scene is the Fleche is a not-to-miss event that multi-regions attend every year.

WEBSITE & WEB TEAM

John Lee Ellis (#153), chairperson of our web team shares: *"The Web Team keeps busy with many things large and small. We support new awards as they come out, new features such as the awards trophy case; new programs such as Gravel and Audax. We do a lot of content creation for those programs, as well as updating rules and procedures. Some features also require programming, e.g., registering to ride perms, submitting results, auto-recognizing awards, displaying awardees, and so on. Finally, we manage the database, which has Randonneur USA's (RUSA) member data, event and result data, and lots more. We provide data services, such as uploading American Randonneur issues, providing member info to send out Between Control, and awardee data for the magazine. Last but not least, we keep up with security and other software updates. So whenever you see a web page, or use a feature on the website, think of the work lurking behind that.*

Our core team is Charlie Martin, Linda Springsteen, Lois Springsteen, Man-Fai Tam, Kevin Williams, and John Lee Ellis. We are proud to contribute to RUSA, and are happy to ride our bikes in the meantime."
